

This map was compiled from U.S. Geological Survey quadrangle maps, aerial photography from Dec. 1, 1967, General Land Office plat road inventory surveys Oct. 1, 1964, and other map data.

This map was prepared using interactive computer graphic techniques.

The railroad station symbol as shown on this map does not necessarily denote the presence of a depot or other facility. It may be only a point designated for the receipt or delivery of freight, such as a platform or siding.

In congested rural areas local roads are indicated by a single line only. For details refer to insets prepared for this county.

No attempt has been made to show all drainage canals and ditches.

City populations are taken from the U.S. Census for 1980.

In 1980, the population of Glades County was 5,992. There are 746 square miles in the county.

No claim is made for the basic cartographic source material taken from a work or works of the United States Government.

Maps of this series are in the public domain. The maps are compiled and published using public domain and are copyrighted to prevent photocopy and resale for profit.
